Type of Locomotion: ___________ Species Example: ___
Taxa of Species: ____________

Relative limb length:
Length of fingers/toes:
Shape (spine):
Position of scapula:
Size of nuchal crest:
Shape and position of pelvis:
Habitat:
Locomotion: _______Species Example:______________
Taxa of Species: __________

Relative limb length:
Length of fingers/toes:
Tail length:
Spine Shape:
Position of scapula:
Size of nuchal crest:
Habitat:
Type of Locomotion: _______ Species Example: ______________
